PROFESSIONAL SUMMARY

Junior Software Developer with 1+ year of professional experience building responsive web applications using Next.js, React, and Tailwind CSS. Skilled in REST API integration, reusable component design, and delivering production features on schedule. Currently pursuing MCA and actively building full-stack personal projects.

EXPERIENCE

FARE Labs Pvt Ltd, Gurugram

Feb'25 – Mar'26

Junior Software Developer

- Built responsive, accessible front-end interfaces for an enterprise Laboratory Information Management System (LIMS) using Next.js, React, and Tailwind CSS.
- Developed reusable UI components and design patterns, improving consistency across dashboards and reports.
- Integrated REST APIs with secure authentication, client-side validation, and robust error handling.
- Collaborated in daily standups, sprint planning, and shipped features on schedule.

PROJECTS

SJ Banking – Web Banking Application | Next.js, React, Tailwind CSS, REST APIs | In Progress

GitHub: [SJBankingRepository](#)

- Building a full-stack web banking app with account management, transaction history, and fund transfer features.
- Designing a responsive UI with Next.js and Tailwind CSS, integrating REST APIs for real-time balance and transaction updates.
- Structuring scalable component architecture to support future features like notifications and spending analytics.

Queue – Print Management System | React, Tailwind CSS, REST APIs, Vercel, Render

Live: [LiveDemo/QueueManagement](#)

GitHub: [PrintingPressRepository](#)

- Developed a virtual queue system for college print shops — students upload documents and join queues online, eliminating physical crowding.
- Designed a fully responsive front-end and integrated backend APIs for real-time queue tracking and document processing.
- Deployed on Vercel (frontend) and Render (backend) for scalable, production-ready access.

SubGen – Subscription Tracker | Next.js, React, Prisma ORM, REST APIs

- Building a platform to track active subscriptions and billing cycles, with renewal reminders and spending dashboards.
- Implementing Prisma ORM for database management; planning AI-based features to flag unused subscriptions.

Goshala Project – Donation collection | HTML, CSS, Javascript

Live: [LiveDemo/ManikootGaunvanshFoundationWebsite](#)

- Built a donation platform for an NGO (cow shelter) enabling online contributions via QR code and payment links.
- Integrated EmailJS for OTP-based donor email verification and contact form handling.

EDUCATION

Master of Computer Applications (MCA)

Aug 2024 – Jul 2026

K.R. Mangalam University, Gurgaon

Bachelor of Computer Applications (BCA)

Sep 2021 – Jul 2024

Maa Shakumbhari University, Saharanpur | 73%

TECHNICAL SKILLS

Frontend: React, Next.js, Tailwind CSS, REST API Integration, HTML, CSS, JavaScript

Backend & Database: Node.js, Prisma ORM, SQL (Basic)

Programming: Java, Data Structures & Algorithms

Tools & Platforms: Git, GitHub, VS Code, npm, Vercel, Render

Core Concepts: Component-Based Architecture, Responsive Design, Problem Solving
