EXPERIENCE

Junior Software Developer — FARE Labs Pvt. Ltd.

feb 2025 - Mar 2026

Gurgaon, India

- Worked full-time on the Laboratory Information Management System (LIMS) used across internal departments at FARE Labs.
- Built responsive, accessible, and optimised front-end interfaces using Next.js, React, and Tailwind CSS.
- Developed reusable components and UI patterns, improving cross-page consistency across dashboards and reports.
- Integrated REST APIs with secure authentication, client-side validation, and improved error handling.
- Collaborated with the team to plan tasks, give daily updates, and ship feature deployments on schedule.

PROJECTS

LIMS — Laboratory Information Management System

Next.js • React • Node.js • REST APIs

- Developed core modules of an internal LIMS platform used to manage laboratory workflows across departments at FARE Labs.
- Built interactive dashboards for bookings, sample tracking, and automated report generation.
- Created reusable UI components to ensure consistency and scalability across the application.
- Integrated REST APIs to enable real-time data updates and secure data handling.

Queue Management System — College Printing Solution

React • Tailwind CSS • REST APIs • Vercel • Render

- Developed a web-based queue system to reduce waiting time and improve efficiency in college print shops.
- Enabled students to upload documents online and join a virtual queue, minimising physical crowd and delays.
- Designed a responsive, user-friendly frontend for seamless cross-device experience.
- Integrated backend APIs for real-time queue tracking and document processing.
- Deployed frontend on Vercel and backend on Render for scalable access.

SubGen — Subscription Tracker

Next.js • React • Prisma • APIs *In progress*

- Developing a subscription management platform to track active subscriptions and upcoming billing cycles.
- Implementing backend data handling using Prisma ORM for efficient database management and scalability.
- Building features to notify users about renewal dates and avoid unnecessary charges, improving expense control.
- Designing interactive dashboards to visualise spending patterns and subscription insights.
- Planning AI-based recommendations to identify unused subscriptions and optimise costs.

EDUCATION

Master of Computer Applications (MCA)

Aug 2024 – Jul 2026 (ongoing)

K R Mangalam University, Gurgaon

Bachelor of Computer Applications (BCA)

Sep 2021 – Jul 2024

Maa Shakumbhari University, Saharanpur • 73%

SKILLS & TOOLS

Web Development

HTML • CSS • JavaScript • React • Next.js • Tailwind CSS • REST API Integration

Backend & Database

Node.js • Prisma ORM • Basic SQL

Programming Languages

Java • DSA in Java

Tools

Git • GitHub • VS Code • npm • Vercel • Render

Core Concepts

Data Structures & Algorithms • Problem Solving • Component-based Architecture
